

Innovating FinOps

Introducing Finsight for Kafka

Take control of your costs with Finsight for Kafka

Finsight for Kafka is an innovative application that seamlessly integrates data streams from various sources with internal Kafka data enabling you to turn raw telemetry into fine-grained attributed costs and insights.

This distinctive dual-data approach transcends traditional FinOps and provides unparalleled visibility into Kafka deployments.

Realise the Full Potential of FinOps

- Comprehensive visibility into costs
- Pinpoint and eliminate inefficiencies
- Un-paralleled control over resources
- Agile and informed decision-making

Finsight empowers organisations to optimise costs and accelerate ROI.

Holistic Cost Attribution: Map expenditures to specific components (e.g. Kafka Topics) for complete ownership visibility and analysis.

Extensive Kafka Expertise: Built with Marionete's profound understanding of Kafka architecture Finsight provides detailed utilisation data beyond traditional FinOps.

Cost Centre Identification: Uniquely assigning costs to distinct elements within Kafka, Finsight identifies cost centres and their proportional expense contributions.

Strategic Decision Support: Actionable data empowers informed resource allocation, optimisation, and planning.

Unlocking New Opportunities

Comprehensive Assessments: Capitalise on our Kafka health checks to identify optimisation areas and catalyse transformations.

Targeted Recommendations: Receive tailored strategies to boost Kafka ROI, improve configurations and resource utilisation.

Complete Solutions: Effortlessly scale from assessment to full migrations, optimisations and beyond.

Why Marionete?

Proven
Expertise

We have a track record of delivering impactful solutions across a broad range of industries

Strategic
Partnership

We understand your business and build lasting value through innovation

Business
Transformation

We empower you with the tools and insights needed to transform business landscape

Transform your financial operations with Finsight for Kafka
